EDUCATION

University of Waterloo

Bachelor of Applied Science, Honours Chemical Engineering (Co-op)

Waterloo, ON

Sep. 2026 – Present

- **Student Involvement:** Waterloo Rocketry Design Team; Engineers Without Borders

Dubai International Academy

International Baccalaureate (IB) Diploma

Dubai, UAE

Aug. 2024 – May 2026

- **Awards:** Leader of Tomorrow Award (2026)
- **Robotics:** Designed and programmed a LEGO SPIKE soccer robot as part of a team and achieved 1st place in the Innoventures Robotics Competition (2025).

SUMMARY OF QUALIFICATIONS

Teamwork & Organization

- Developed teamwork and organizational skills through collaborative engineering projects, construction-site experience, and coordinating responsibilities across student-led initiatives.

Analytical & Problem-Solving

- Applied analytical and problem-solving skills to collect and interpret experimental data, evaluate uncertainty, and troubleshoot measurement methods across 65 experimental trials.

Leadership & Communication

- Strengthened leadership and communication skills by leading a 44-member student council, supervising approximately 66 prefects, and representing student initiatives to school leadership.

TECHNICAL EXPERIENCE & PROJECTS

MEP Engineering Intern | Enerzo Electromechanical Contracting L.L.C.

Jun. 2025 – Jul. 2025

- Participated in construction site visits and inspections alongside engineers and supervisors, gaining practical exposure to mechanical, electrical and plumbing (MEP) systems.

Galvanic Cell Voltage Investigation | IB Chemistry Internal Assessment

Apr. 2026

- Prepared 5 CuSO_4 solutions (0.10–0.50 mol/L) and conducted 25 trials using Zn–Cu galvanic cells to investigate the effect of concentration on cell voltage.
- **Skills:** Microsoft Excel, data analysis, solution preparation, volumetric glassware.

Golf-Club Collision and Restitution Investigation | IB Physics Internal Assessment

Apr. 2026

- Conducted 40 collision trials across 8 release angles (10° – 80°) using a pendulum setup, photogate sensor and video measurements to investigate coefficient of restitution.
- **Skills:** Microsoft Word, photogate sensors, mathematical modelling.

LEADERSHIP EXPERIENCE

Head Boy (Head of Student Council)

Apr. 2025 – May 2026

Dubai International Academy

Dubai, UAE

- Led a 44-member student council and supervised approximately 66 prefects through monthly meetings, duty agreements, and attendance tracking, coordinating initiatives across Grades 6–12.
- Co-organised UAE National Day and Winter Market for approximately 1,200 students per event, coordinating student teams and an 8-member design team to deliver school-wide activities.
- Managed fundraising stalls for UAE National Day and Pink Day, raising approximately CAD \$1,140 to support school events and breast-cancer awareness.
- Developed a cost model for a 300-serving popcorn fundraiser using ingredient and packaging expenses, projecting approximately CAD \$271 profit on CAD \$580 revenue at a 46.8% margin.
